# Element Change Spanner

**Part No: FM0027**

Purpose designed specifically for use in the element change procedure when servicing all Filter Technology Australia filter systems.

Manufactured from aluminum this item provides a cost effective, safe and efficient tool for the task.

The ring spanner suits the compression nut whilst the opposite end is equipped with a gauge to assist the maintainer in locating the compression nut during the tensioning process.

Go to <http://www.filtertechnology.com.au/pages/manuals.htm> for an element change procedure to suit your system
